# PB-15  Wireless Panic Button

## Help at One Button Press

The PB-15 Series are wireless panic buttons that allow the user to press for help in emergency situations. During urgent situation such as a fall, acute medical problem, fire or burglary, the user can quickly activate the device to report an emergency to caregiver, monitoring personnel, or authorities. When transmitting alarm signals, the PB-15 flashes it's LED to indicate to the user that alarm reporting is in progress.

The PB-15 series deliver extensive radio frequency (RF) communication range, and fast signal transmission. PB-15 stands out as a highly cost-effective life safety solution indispensable to a comprehensive emergency alert system.

Wireless, IP44 water-resistant and wireless, the PB-15 series can be conveniently installed in easily accessible locations, anywhere around the premises, for an extra layer of protection and peace of mind.

• **Long Battery Life**

• **Extensive RF Range**
