which has been subjected to certification according to the criteria of the Certification Body for Products - VVUÚ, a.s. and to certification procedure elaborated by Certification Body.

The certificate was issued within the scope of accreditation of the Certification Body.

The above mentioned accredited Certification Body certifies that the submitted sample of the product was found to comply:

- with requirements of the standards ČSN EN 60079-29-1, chap. 4.2.1, 4.2.5, 4.2.6, 4.3, 4.4 and Annex A

The manufacturer chose a certification scheme of Certification Body – 3A (Description of the scheme – see Assessment Report).

The Assessment Report No. 3076-016501/2011 dated on 30/09/2011 and issued by the Certification Body for Products at VVUÚ, a.s., Pikartská 1337/7, CZ-716 07 Ostrava – Radvanice, is an integral part of this certificate.

The products to which this Certificate applies are subject to review by the Certification Body once in two years at the manufacturer's request, and the Certificate holder is obliged to observe the Instructions for Certificate Use which may be found on the reverse of this Certificate.

The certificate is issued for the purpose of the manufacturer's declaration of product conformity with the above mentioned technical specifications.

The certificate is valid till 30/09/2017.

September 30, 2011, Ostrava – Radvanice  
Date and place of issue of the certificate

Ing. Miloš Vavřín  
Deputy Head of Certification Body

## Instructions of Certificate Use

1. The certificate applies exclusively to products of the same design as the certified product.
2. The certificate holder is entitled to use the certificate for the Declaration of Conformity only for products identical to the certified sample product.
3. The certificate holder is obliged to comply with all conditions under which this certificate was issued.
4. The certificate holder is obliged to notify the Certification Body, without any undue delay, any and all changes related to the organisation (in relation to the certified product) or design of the certified product and its documentation.
5. The certificate holder is obliged to record and keep all complaints submitted in connection with the certified product; install and document suitable measures related to such complaints; and submit these records and measures to the Certification Body during inspections.
6. The Certification Body shall confiscate the certificate of anyone who has been found to:
  - a) falsely use the certificate in promotional materials and make inappropriate references to the certificate;
  - b) fail to keep records of complaints and fail to address complaints raised against the product;
  - c) knowingly present false information in the product certification application and/or in document decisive for certificate issue;
  - d) fail to make relevant notifications;
  - e) fail to enable the Certification Body to perform inspections, if being a part of the certification scheme.
7. In case the Certification Body suspends or confiscates the certificate, the certificate holder shall return all certification documents requested by the Certification Body (i.e. certificate) and stop using any and all promotional materials containing any reference to the certificate.
8. The certificate holder shall enable the Certification Body to perform inspections within the term of regulation of the standard ČSN EN 45011.

The certificate holder acknowledges the Instructions for Certificate Use and is hereby bound to observe them.
