

JA-112P JA-152P PIR motion detector

Motion detectors are key devices of the security system. They provide high reliability that fundamentally affects the whole security system. Internal detectors are intended to recognize movement of people in the interior. Available in white, gray (-GR) and anthracite (-AN).

TECHNICAL SPECIFICATION

	JA-112P	JA-152P
Power supply	from control panel	1x CR123A 3.0 V
Idle current consumption	5 mA	30 μ A
Max. current consumption	16 mA	100 mA
Compatibility	JA-102KY/KRY, JA-103K/R, JA-107K/R	
Mounting height	2.2 - 2.5 m above the floor level	
PIR detection angle / range	90° / 12 m	
Environment	indoor general	
Operating temperature	-10 °C to +40 °C	
Dimensions	62 x 110 x 40 mm	
Weight	90 g
